

EDGE

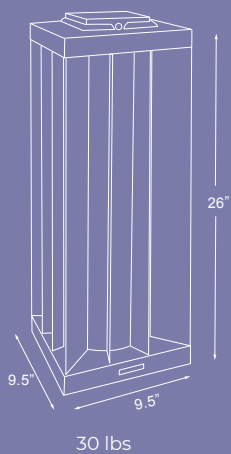

Stoic. Opulent. Balanced

Made with stainless steel blade and weathered teakwood, this lamp combines features and designs taken from our classic best sellers.

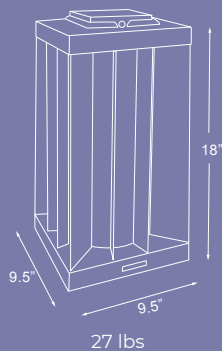

The acrylic tube in the center illuminates beautifully from top to bottom while the light playfully shines and bounces on the stainless-steel blades. Balanced perfectly with a touch of wood on both ends. An uncompromising lamp for those who refuse to settle for less. Get the whole trio and your friends will think you're a design guru.
